

# BOOSTER SET FOR THE DEHESA BOYAL SPORTS CENTRE IN SAN SEBASTIÁN DE LOS REYES

## WHERE:

**San Sebastian de los Reyes** is a Spanish municipality located 18 kilometres north of the capital city of Madrid. The municipality extends over 59.26 km<sup>2</sup>.

## WHEN:

June 2016

## THE REQUEST:

The Municipal Sports Centre in San Sebastian de los Reyes is well known for its national sports activities and facilities.

The project involved a large water supply system requiring the installation of a constant pressure set, consisting of two main vertical multistage centrifugal pumps with MCE inverter.

The salient feature of the set is the use of impellers, diffusers and casing in AISI 304 stainless steel to ensure a long life and high efficiency and performance. The PTFE floating adjustment ring, WRAS approved, also ensures consistent performance and utmost reliability.
